

# HTML Comments

[< Previous](#)[Next >](#)

Comment tags are used to insert comments in the HTML source code.

## HTML Comment Tags

You can add comments to your HTML source by using the following syntax:

```
<!-- Write your comments here -->
```

Notice that there is an exclamation point (!) in the opening tag, but not in the closing tag.

**Note:** Comments are not displayed by the browser, but they can help document your HTML source code.

With comments you can place notifications and reminders in your HTML:

## Example

```
<!-- This is a comment -->  
  
<p>This is a paragraph.</p>  
  
<!-- Remember to add more information here -->
```

Try it Yourself »

Comments are also great for debugging HTML, because you can comment out HTML lines of code, one at a time, to search for errors:

## Example

```
<!-- Do not display this image at the moment  
  
-->
```

# HTML Exercises

## Test Yourself With Exercises

### Exercise:

Use the HTML comment tag to make a comment out of the "This is a comment" text.

```
<h1>This is a heading</h1>  
  This is a comment  
<p>This is a paragraph.</p>
```
